

—• Workshop Summary

If you're interested in improving your turn-around time for obtaining Act 399 Water System Construction Permits (Michigan Safe Drinking Water Act) and Part 41, Wastewater System Construction Permits, of Act 451 (Natural Resources and Environmental Protection Act), the Michigan Department of Environmental Quality (DEQ) can help! This one-day workshop will show communities, developers, and consulting firms how to ensure the quickest review and permitting of projects.

Along with reviewing checklists and common problems that hold up processing of applications, the DEQ will review its new Expedited process along with the existing Streamline process for water main and sewer main construction permitting to provide for even faster application reviews and permit issuances.

A complete package of program requirements, checklists, and guidance will be provided to each attendee.

ANYONE INVOLVED IN WATER AND SEWER CONSTRUCTION PERMITTING SHOULD ATTEND.

For mobility, visual, hearing, dietary, or other assistance, please contact Mary Goodhall at 517-241-7968, or Email at goodhallm@michigan.gov.

AUTHORITY: PA 451 of 1994, as amended
Total Copies: 1,350
Total Cost: \$251.41
Cost Per Copy: \$.19
